SKILLS

- **Languages & Tools** Java, Python, C#, ASP.NET, ADO.NET
- **Machine Learning:** NLP, Computer Vision, Matplotlib, Scikit-learn, Pandas, TensorFlow, Deep Learning
- **Data Science:** Data Visualization, Exploratory Data Analysis, Data Cleaning, Power BI
- **Database:** MongoDB, MySQL, MSSQL.

EXPERIENCE

AI & Machine Learning Developer (Academic Projects)

Nov 2025 – Dec 2025

- *Lovely Professional University* Punjab
- Developed a **Document Intelligence Multi-Modal ChatBot** capable of processing text and structured documents for contextual question answering.
- Built a **Movie Recommendation System** using content-based filtering and cosine similarity.
- Performed data preprocessing, feature engineering, and model evaluation using Python and Scikit-learn.
- Conducted Exploratory Data Analysis (EDA) and visualized insights using Matplotlib and Pandas.

PROJECTS

Multi-Modal-Document-Intelligence [Link](#)

Dec 2025

- *AI / Machine Learning Project* (Python, NLP, AgenticAI, Scikit-learn, Pandas, Vector Embeddings, Streamlit)
- **Designed and developed** a multi-modal AI system capable of processing **text, images, and structured documents** to enable intelligent query handling and contextual understanding.
- **Implemented document ingestion pipelines supporting PDFs, scanned documents, and image-based inputs.**
- **Applied OCR and NLP techniques** to extract, clean, and structure textual data from heterogeneous sources.
- Built a semantic search mechanism using vector embeddings for contextual information retrieval.
- Integrated transformer-based language models to enable conversational question-answering over uploaded documents.
- Designed a modular architecture to support scalable document processing and future model integration.

Agentic_AD_performance_analysis [Link](#)

March 2025 – April 2025

- *Evaluates AD on the basis of the data from the interaction of Users.* (Multi Agent AgenticAI, NLP)
- Developed an Agentic AI system to analyze advertising campaign metrics such as CTR, CPC, and ROI.
- Implemented autonomous workflows to generate performance insights and optimization recommendations.
- Applied data preprocessing, statistical analysis, and visualization to identify trends and improve decision-making.

GDP Analysis [Link](#)

December 2024 – Jan 2025

(Python, EDA)

- Conducted Exploratory Data Analysis (EDA) on GDP datasets to identify economic growth trends, sector contributions, and country-wise comparisons.
- Performed data cleaning, transformation, and statistical analysis to extract meaningful insights from large economic datasets.
- Visualized GDP growth patterns, year-over-year changes, and comparative metrics using data visualization techniques.

LEADERSHIP & VOLUNTEERING

- Demonstrated ability to take initiative, coordinate team efforts, and drive projects to successful completion through effective communication, problem-solving, and decision-making.
- Led a team to qualify for the college round in SIH hackathon, driving innovative solutions and collaboration. Aug 2024 – Nov 2024

CERTIFICATES

- Cloud Computing –NPTEL [Link](#) Jul 2024 – Oct 2024
- Complete Machine Learning & DS Program –GFG [Link](#) June 2024 – Aug 2024

EDUCATION

Lovely Professional University

Bachelor of Technology - Computer Science and Engineering; **CGPA: 7.39**

Since Aug 2022

Nashik Presidency Junior College

Intermediate: **Percentage: 63%**

May 2022

Horizon Academy (CICSE)

Matriculation : **Percentage: 78%**

May 2020
